CM750 Continuous Motion Cartoner

Main Drive

- Heavy-duty, maintenance free chainless drive in enclosed drive panel
- Clean “drop-through” design for a self-cleaning machine
- Point of use overload protection
- Oversized components for long, worry-free operations

Features

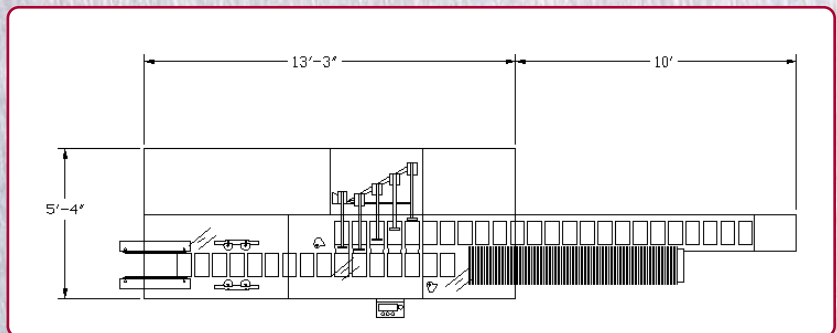

- Heavy-wall, tubular steel base frame gives the cartoner vibration-free operation
- Quick and easy changeover with lead screw cranks
- Main control is an operator-friendly, color, touch-screen interface
- Interlocked access doors for a short reach into the machine

Product Infeed

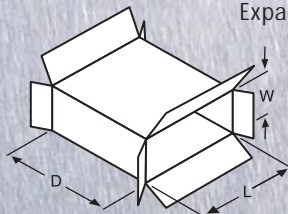

- Turnkey systems integration
- Article buckets designed around your product and sizes
- No carton – no load, self clearing cartoner
- Soft load product pushers
- Custom collating and bucket loading

Carton Set-up

- Standard 6-foot powered carton magazine
- Positive carton pick and set-up using our proven backlash-free rotary placer
- Four chains and four lugs for adjustable carton flights
- Carton front flights are phase adjustable
- “No-tool” changeover available

Expanded size ranges available to meet your requirements
